Pooled Procurement Mechanism Reference Pricing: Insecticide-Treated Net (ITN)

Version: Q1/Q2 2026

The Global Fund has established Framework Agreements with manufacturers of ITN with the aim to achieve lower prices and also ensure the sustainable and reliable on-time supply of the full range of the needed ITNs. The prices below are the prices at which the Global Fund Pooled Procurement Mechanism aims to deliver the health products at or below throughout the grant implementation period as recommended in the Global Fund Guidelines for Grant Budgeting for health products: https://resources.theglobalfund.org/media/13810/cr_budgeting-global-fund-grants_guidelines_en.pdf. Actual prices achieved for a grant will depend on how early the orders are placed by Principal Recipients - and additionally the achievement of certain volume thresholds through the pooled volumes to enable us to achieve negotiated prices through the mechanism. Actual prices achieved will be charged to the grant.

BULK PACKAGING: Thanks to the joint proposal submission from UNICEF, WHO and Global Fund, United Nations Economic Commission for Europe (UNECE) has granted/approved a general exemption for ITNs used for public health from the https://unece.org/transport/dangerous-goods/un-model-regulations-rev-23 .This important exemption makes possible the bulk packaging or “naked nets” (ITNs supplied without an individual plastic bags), thereby significantly reducing the use of plastics associated with ITN distribution and ensure unit cost saving.

* Standard ITN includes:	
Number of hooks & strings	6 hooks and 6 strings
String length (meters)	*1.5m or 2m* for Pyrethroid-Only & Pyrethroid-PBO (Prices above reflect a 1.5 m string; an additional cost will apply for a 2 m string.) *2m* for CFP Dual a.i.
Colour	White / Light Blue / Light Green for Pyrethroid-Only & Pyrethroid-PBO White / Light Blue for CFP Dual a.i.
Individual Bag or Bulk Packaging*	*Routine Campaign:* each ITN includes an individual bag with Standard artwork in English & French *Mass Campaign:* WHO recommendation is to procure ITNs without individual bags and in bulk packaging, however PR can select the preferred item with or without bag
Care Label	Standard artwork in English and French
Bale size	50 nets per bale

Non-Standard or Customized ITN:

Any customization beyond the Standard ITN specifications mentioned above, such as alternative bale size, different color, varying number of strings or hooks, or customized artwork (e.g. logos or text on labels, bags, or inserts), must be supported by solid programmatic justification and approved by TAP and HPM. Upon approval, the request needs to be shared with the Direct Sourcing team to assess feasibility and any additional supplier costs.
