Pooled Procurement Mechanism Reference Pricing: LLINs (version: Quarter 1 2020)

The Global Fund has established Framework Agreements with manufacturers of Long-Lasting Insecticidal Nets (LLINs) to ensure sustainable and reliable on-time supply.

The Pooled Procurement Mechanism (PPM) aims to deliver orders for the listed LLINs at or below the Standard or Customized Reference Pricing.

The Standard Reference Price or Customized Reference Price should be used for budgeting purposes.

Both Reference Prices include the following accessories: 6 hooks, 6 strings and an individual bag.

The Base Price for a net without any accessories is only indicated for illustrative purposes; this price should not be used for budgeting.

Actual pricing achieved for a grant depends on how early orders are placed by Principal Recipients and on country registration requirements.

For dual AI net pricing, please contact the Vector Control Sourcing Specialist: Clarisse.Morris@theglobalfund.org
